## WORK EXPERIENCE

### **PartnerTap, Inc**

#### **Software Engineer Intern**

**Remote**

06/2020-09/2020

- Worked closely with product managers, UX/UI designers, and QA engineers to gather and analyze requirements for new product features.
- Discovered a serious bug in iOS app that allowed users with free accounts to have premium features for free, communicated to team lead, fixed bug, and wrote a unit test to prevent future occurrences.
- Was mentored by the CTO, attended company's meetings, shadowed senior engineers.

### **T-Mobile USA**

#### **Finance Analyst**

**Bellevue, WA**

04/2018- 09/2018

- Gathered, researched, tracked interdepartmental feedback to eliminate redundancies. Increased daily team production by 8%.
- Using SQL and Excel, provided monthly reporting and data analysis of ongoing trends, rejections, and growth for both new and existing businesses.
- Worked on large accounts such Delta Airlines, Footlocker, Apple, Microsoft to identify trends and contribute to software development process and new product launches.

### **Full-Time Application Development Student**

#### **Bellevue College**

**Bellevue, WA**

09/2020 - 06/2022

- **Drawville 2.0:** individual project targeted towards toddlers and preschoolers, where I implemented Node.js, jQuery, React.Js, JavaScript, and built a tool for drawing and coloring. [source code](#)
- **Harvest-Time:** individual project, a game, where user collects the harvest and fights the rabbit. [source code](#)

## EDUCATION

### **Bachelor of Applied Science: Application Development**

#### **Bellevue College**

**Bellevue, WA**

09/2020 – 06/2022
